1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 14-16, 18, 20-21, 24-26, 28, 29, 30, 34, 36-38, 41, and 42 are rejected under 35 U.S.C. 102(e) as being anticipated by Noeske.

Noeske discloses an apparatus for retrieving RDS information from a multiplex signal and which is comprised of a first signal path, via which a stereo difference signal is extracted from a first intermediate signal (signal path input to 21); a second signal path, separate from the first path, via which a stereo-sum signal is extracted from the multiplex signal (signal path to 19); a third signal path, branching from the first signal path, via which the RDS information is retrieved (signal path to 19 is branched off to 31); a first intermediate signal is a signal from which a stereo difference signal of the multiplex signal can be extracted by one of a low pass filtering or combination of sampling rate decimation filtering and low pass filtering (col. 3, lines 42 to 45).

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2644

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

4. Claims 17, 19, 22, 23, 27, 31-32, 33, 35, and 39-40 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 2-4 are allowable over prior art of record.
